CABLE SHAKER SEC

Main Features

The least expensive of our range of vibrators attached to the rear of a tractor.

Very robust, it is particularly suitable for small farms due to its versatility.

It works thanks to a drive shaft and bevel gear, not requiring a high power tractor.

Very manoeuvrable, three-point hitch and power take-off, it is designed to vibrate small and large fruit trees: walnuts, plums, cherries, cider apples.

Its design allows vibration-free operation of the tractor.

Easy to use, just hook the rubberized sling to the trunk or branches and tighten the 7m sling, then activate the PTO.

Technical characteristics

Yield	12 trees / hour
Power required	40 hp
Transmission	By angular gearbox Direct
Oil tank	without
Cockpit	Tractor power take-off direct drive of the whole machine
Vibration head	on silentbloc
Diameter of the trunks	from 80 to 400 mm
Vibration height	from 0.50 m to 2.50 m
Options	lightweight polypropylene straps
Security	Complies with CE standards
Dimensions	Length: 1.13 m - Width: 0.90 m - Height: 1.40 m
Weight	350 kg
