ECONOMICAL SHAKER VHE

Main Features

The lightest and most flexible of our vibrators attached to the rear of a tractor.

It is designed to vibrate fruit trees: nuts, plums, plums, cherries, cider apples.

Its star vibration has been designed not to injure the tree while ensuring optimal work. All its movements are hydraulic.

Available in several versions, it combines robustness, high performance and softness.

Hollow tubes, filled with soft material are optional. They are particularly suitable for harvesting fresh nuts and for vibrating fragile trees.

Direct drive, manual or electric control, oil cooler, arms of different lengths.

Technical specifications

Flow	60 trees/hour
Power required	60 ch
Transmission	2 hydraulic motors giving a great dynamism at startup
	Gear pump
Oil tank	45 to 140 liters
Cockpit	direct drive, manual or electric dispenser
Vibration head	suspended by 4 chains
	no adjustment of the orientation
Diameter of the trunks	550 mm
Vibration height	from 0.50 m to 2 m
Options	American soft clamping pads - Rotating brushes electric control - Electric control - Oil cooler - Low olives
Safety	Complies with CE standards
Dimensions	Length : 3 m - Width : 1.17 m - Height : 1.20 m
Weight	760 kg
