HYDRAULIC SHAKER

Main Features

The most versatile of our vibrators hitched to the back of a tractor.

It is designed to vibrate fruit trees : walnuts, plums, cherries, cider apples.

its star vibration was thought not to hurt the tree while ensuring an optimal work. All his movements are hydraulic.

Available in several versions : manual or electric control, oil cooler, arms on several length for all types of trees, it combines robustness, high efficiency and softness.

The hollow tubes, filled with soft material are offered as an option. They are especially suitable for harvesting fresh nuts and vibrating fragile trees.

Technical specifications

Flow	80 trees/hour
Power required	75 ch
Transmission	2 hydraulic motors giving a great dynamism at startup
	Pallet pump
Oil tank	140 liters
Cockpit	manual or electric dispenser
Vibration head	star vibration (omnidirectional)
	suspended by 2 chains and 2 pads
	hydraulic adjustment of the orientation
Diameter of the trunks	600mm
Vibration height	from 0.50 m to 2.40 m
Options	American soft clamping pads - Rotating brushes - Electric control - Oil cooler - 4th distributor - Large arm on cylinder for high shaf
Safety	Complies with CE standards
Dimensions	Length : 3m - Width : 1,17 m - Height : 1,20 m
Weight	1 080 Kg / 1 130 Kg
