HARVESTER R06

Main Features

This harvester is the smallest of our range but she has all the advantages of her big sisters. It's designed to harvest any nuts and dried fruits, for a surface of 5 hectares maximum. Easy to use, this machine is easy to operate thanks to good visibility. It has a manual control of speed and a control of the organs by hydraulic distributor. It has two cleanings, one by ventilation and one by vibrating grid.
