SHAKER SPRINT

General features

OMC's SPRINT Shaker will make your harvest easier and more efficient. Its high performance comes from its lateral shaking which allows the operator to move through the rows and shake up to 7 trees per minute. In its standard version the SPRINT shaker is equipped with the R-2 Magnum shaking head with oval pads and the automatic greasing of the slings.

LED night lights illuminate the front, sides and rear of the vehicle, while a color monitor provides crucial information and settings. Heating and air conditioning are standard, for more comfortable and productive days in the field.

Usage :

Almonds / Walnuts / Pecan / Macadamia
