# HARVESTER R06

## Main Features

This picker is the smallest in our range, but it has all the advantages of its larger siblings. It is designed to pick nuts and dried fruit only, for a maximum area of 5 hectares.

Simple to use, this machine is easy to maneuver thanks to good visibility.

It features manual advance control and hydraulic spool valve operation.

It is equipped with two sorting systems, one by ventilation and the other by vibrating grid.
